Introducing PathLite™ Life safety, no power required.

PathLite™ — the photoluminescent touchpad cover option for the Corbin Russwin ED4000 and ED5000 exit device series — is cost-effective and especially suited for retrofitting. PathLite patent pending technology offers a number of benefits:

- > Recharges with exposure to ambient light – requires no wiring or maintenance
- > Unaffected by heat or cold
- > Non-toxic, will not rub off or fade
- > Vandal- and fire-resistant, non-radioactive
- > Green contrasting word "EXIT" centered on touchbar in 1-1/4" high lettering
- > Meets New York City's newly adopted standards for requirement of photoluminescent signage and stairwell marking in all office buildings exceeding 75 feet in height
